

Introducing Toono: Notes by Color

Instead of relying on folders or tags, you define your own colors and use them as labels making notes easier to recognize, filter, and navigate.

Key Features

- **Define Your Colors**
- **Assign Color to Notes**
- **Filter by Color**
- **Pin / Unpin Notes**
- **Search Notes**
- **Share Notes**
- **AI Summaries**
- **Sync with iCloud**

Availability

Toono is now available for free on iOS devices. A lifetime unlock for \$6.99 is also available for those seeking additional features and customization options.

Download on the App Store: <https://apps.apple.com/app/id6762279647>

About the Developer

Toono is developed by an independent studio based in Estonia, focused on simple and thoughtful products. The goal is to create tools that stay clear, reliable, and easy to use where structure supports thinking instead of getting in the way.
